# Why choose GMS?

GMS Industrial Supply, Inc. has been in business for over 20 years, it is locally owned and operated in San Diego, California and Virginia Beach, Virginia. GMS has been established as one of the largest women owned small business suppliers to the U.S. Government and Department of Defense. As our unique high-tech products are designed with the environment in mind, we have created a product offering unlike anyone else in the industry. Our experience in DoD Logistical Support in the areas of Chemical Solutions, Fasteners and Tactical Gear, has been the catalyst to our growth in the industry throughout the United States and Abroad. GMS has dozens of NSN's and 100's of NAVSUP stock numbers on the most favored procurement contracts and in the stock system, along with being stocked in the DLA Depots with an experienced presence at nearly every major DoD Facility in the continental US, Alaska, and Hawaii. We are grateful for the many years of guidance, support, and direction in order to design our products to best meet the needs of the brave men and women of the Army, Navy, Air Force, Marines and Coast Guard with whom this country is blessed. When you purchase a product from GMS, you not only get a world class product, you also get complete customer satisfaction. Our sales and service team, with over 90 combined years of experience, will take care of your every need, providing complete satisfaction. GMS Industrial Supply, Inc. is committed to being the best nationwide-our satisfied customers are our proof! Simply put, GMS responds with excellent service and gets the critical materials needed where, when, and how it is needed, faster than anyone.

# Our President

*"And He said to them, 'Go into all the world and preach the gospel to every creature.'" Mark 16:15*

*"Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves. Each of you should look not only to your own interests, but also to the interests of others" Philippians 2:3-4*

Dear Valued Customer,

My name is Rachel Gorke, Owner and President of GMS Industrial Supply, Inc., woman owned small business. Our experienced professional sales and service representatives are ready to assist you with any maintenance problems or needs that you may have. With every purchase of our products, you get a total commitment from GMS Industrial Supply, Inc. that you will receive complete customer satisfaction from the very best products, services, and technical support in the industry.

- Rachel Gorke

## Our Mission Statement

We rely on Jesus Christ as our cornerstone; He is the foundation on which we stand as our strength and our shield. It is the mission of GMS Industrial Supply, Inc. to extend our line of environmentally friendly chemicals and industrial supplies in order to satisfy our customers' needs through a family based approach to a modern economy. We humbly serve our Lord in providing the best customer service in the industry while striving to enhance our world and well being. We value the resilience and dedication of our United States Military, as well as the channels utilized to best service these sectors.

### **The Green Oger's TAA Compliance Promise**

The Green Oger and the GMS team have worked tirelessly to ensure all of your standards are met. That's why we're the sole supplier that can ensure 100% TAA compliance on all material you receive from us. Are the "other guys" putting in that effort for you? Remember - the Green Oger CRUSHES the competition - call us today to learn how we can best outfit your command!

# GMS HEMTT/5K FUEL BERMS PERMANENT CONTAINMENT SYSTEM

With the high demand for secondary containment, GMS HEMTT/5K Fuel Berms are designed to fit the needs of today's 2,500 gallon HEMTT tankers, 5K tankers, fuel pods, and TPUs. Our Fuel Berms are a permanent, re-locatable product line that meet all EPA and OSHA regulations for secondary containment.

Originally designed for fuel tankers, these can also be used in a multi-purpose role as a wash rack, loading/unloading rack, a decontamination station, fueling stations, fueling pod, transfer station, and a multitude of other uses.

With our state-of-the-art filtration system, the versatility justifies the initial investment and makes the GMS HEMTT/5K Fuel Berms the most cost-effective, multi-purpose product line available today.

Our Fuel Berms are a permanent, re-locatable, drive-through containment system of various models and sizes, with ramps in different configurations and including our filtration system. We use a hydrophobic lock and seal absorbent that makes these Fuel Berms a point source control unit.

As always, our GMS HEMTT/5K Fuel Berms come with an assortment of GMS absorbent components and accessories for a full spill containment solution on site.

The side walls of our GMS HEMTT/5K Fuel Berms have been designed and engineered to withstand a 12 ton vehicle axle load being driven over the side walls, making this the most heavy duty secondary containment system available on the market.

The GMS HEMTT/5K Fuel Berms can be set up and moved with standard material handling equipment, such as a 5 ton crane/wrecker or forklift, and transported by flatbed and can be placed on any level surface.

MODELS AND SIZES				
Model Number	Options	Outer Dimension (LxWxH)	Weight	Sump Capacity
GMS7481K	2 Inner / 2 Outer Ramps	35' x 12' x 10.5"	10,800 lbs.	2,136 Gallons

## FILTRATION SYSTEM

Cartridge Apart

Cartridge with Pad

Replacement Pad

Complete Cartridge with Pad

Our filtration cartridge is a steel two-piece system which uses specially designed replaceable pads (GMS146P—12 per box). The filtration cartridge was designed to save you money. Simply replace the filtration pads as needed. With the rugged designed steel system, you don't have to worry about the filter falling apart during replacement. Our design is easier to use, making it easier to remain in compliance.

## FILTER TEST

Test #1: Water only poured into side A and allowed to pass through filter. Sample 1B taken from filtered side.

Test #2: Ten (10) gallons of water with a 1% red dye diesel solution poured into side A and allowed to pass through filter to equalize. Sample 2A taken from side A. Sample 2B taken from side B (filtered side).

Photo of sample 2A being taken.

Test #4: Ten (10) gallons of water with a 10% red dye diesel solution poured into side A and allowed to pass through filter to equalize. Sample 4A taken from side A. Sample 4B taken from side B (filtered side).

Added red dye diesel solution to side A to reach a 30% minimum concentration.

Shows sample #5A.

GMS Industrial Supply products meet the Federal sustainability requirements of Executive Order-13693 and the reduction of GHG (greenhouse gases). GMS Industrial Supply products meet the requirements to be a vital tool in helping reduce greenhouse gas emissions by at least 40 percent over the next decade while at the same time fostering innovation, reducing spending, and strengthening the communities in which our Federal facilities operate as referred to (**Executive Order-13693 - Planning for Federal Sustainability in the Next Decade**). We are delivering environmental performance without sacrificing workplace performance. This will save taxpayer dollars through avoided energy costs and increased efficiency while also making Federal facilities more resilient.

## GMS Industrial Supply now carries USDA Certified Biobased Products!

We carry these products that meet  
Executive Order #13693

Product Name	Product Number
