Dear Valued Customer,

I am Rachel Gorken, the Owner and President of GMS Industrial Supply, Inc., a small woman-owned business. At GMS Industrial Supply, we take pride in our team of knowledgeable sales and service representatives who are fully prepared to address any maintenance issues or requirements you may encounter. When you choose to purchase our products, you can expect an unwavering dedication from GMS Industrial Supply to ensure your utmost satisfaction by delivering the finest products, services, and technical support available in the industry.

The Green Oger's TAA Compliance Promise

The Green Oger and the GMS team have worked tirelessly to ensure all of your standards are met. That's why we're the sole supplier that can ensure 100% TAA compliance on all material you receive from us. Are the "other guys" putting in that effort for you? Remember - the Green Oger CRUSHES the competition - call us today to learn how we can best outfit your command!

***Rachel
Gorken***

President**

Ship Shape! Cannonballs

Over a 90% Reduction of Fossil Fuels/GHG's

Ship Shape! Cannonballs (SSCB!) in itself means the right shape and size for US Navy ships and any deploying unit in the DoD. We have spent over a decade developing this product line, hand in hand with US Navy and US Army personnel; keeping in mind the directives in Executive Order-13514 and the NAVSUP PRIME (Plastic Reduction In The Marine Environment) initiative. SSCB! represents over a 90% reduction of Fossil Fuels in logistics and our environmentally friendly ingredients meet Executive Order-13693. The technology is simple: individual dissolving packs of green, super-concentrated cleaning compounds that will fit in the palm of your hand and make an entire quart in any bottle or container at the lowest cost. There are no other alternatives that utilize the approved green technologies, that include and incorporate sustainable Biobased technologies with the cleansing power, and hazmat storage footprint reduction as easy to use as the SSCB! products. Our packaging technology makes it possible to improve the efficiency of cleaning on board any ship, or deployed unit wherein use of space is mission critical, in compliance with Federal directives.

One Pallet of RTU Products:

- 4 x 1 gallons per box
- 50 cases/pallet
- Delivers 600 quarts of RTU product
- Requires about 67 cubic feet of space
- Weighs 1650 lbs.

One Box of

Ship Shape! Cannonballs:

- 100 Cannonballs/tub, 8 tubs/box
- Makes 800 quarts of RTU product
- Requires 1.2 cubic feet of space
- Weighs 8 lbs.

- Reduces storage space requirements by 97%
 - Handling weight is reduced by 99.7%
- Shipping charges are reduced up to 90%
 - Plastic waste is reduced by 99%
 - On average, a 35% cost savings!

- SSCB! delivers 200 more quarts or 25% more product than an entire pallet of RTU product
- Traditional concentrate packaging has mix requirements that can be rendered useless by equipment failure
 - Empty jars and tubs are recycled as part of our recycling program
 - Most formulas are biodegradable

Brand New NSNs Approved for T-SHML and SMCL (Submarine)!

Items highlighted are also T-SHML Approved!

Be sure to inquire about our Deployment Sanitation Pack MSG1962 - the perfect setup and size for ships or deploying commands!
